Smart Hotel Systems

Smart Hotel Systems allows you to control any device in a room virtually and automatically. It can deliver an elegant and more affordable way to control and automate lighting, music, video, security and energy in a single room or throughout the entire suite. The device makes your living convenient, peace of mind and an efficient environment that is comfortable and safe.

Room Lighting

The welcome light will turn on automatically when the door opens. Lighting in different mode (reading mode, sleeping mode, TV mode) is controlled by switch or smart phone.

Background Music

The music will be on with the door opened. Play guests' favorite music from their smart phone via Bluetooth communication. Bath becomes more enjoyable accompanied by music. Wake-up service via the alarm function.

Mode Support :

- Sleeping mode : Light music for and after sweet dream.
- Welcome mode : Favorite country folk welcoming your arrival.
- Bathing mode : Soothing music bringing a relaxing bath time.

Curtain control

Open and close the curtain by your smart phone, in addition to the switch

Check out Indicator

Inform the reception of your checking out in advance via the check-out button to save your waiting time.

Security Camera

The scene outside the room will be shown on the TV once the door bell is pressed to ensure your safety.
